

DEKA-ArtLiner / DEKA-ArtLiner Star

2 in 1! Universal Dimensional Paint / Universal Dimensional Paint with Glimmer Effects

DEKA-ArtLiner/ DEKA-ArtLiner Star for arts and crafts projects on paper, cardboard, wood, leather, stone, light and dark fabric and much, much more!

It can be used for all types of arts and crafts projects: for decorating paper bags, birthday cards, cloth bags, paper lampshades, jeans, leather belts, t-shirts, sneakers and much more. Any place you want to add an extra colourful touch is where you need DEKA-ArtLiner. You also can easily create beautiful lettering patterns and designs.

Features:

Flexible – opaque – lightfast – machine washable up to 30°C, delicate cycle – brilliant shades – no heat-setting – and waterbased, of course!

DEKA-ArtLiner Star 78304 for white fabrics glows in the dark. The painted project must be exposed to a light source (sun or artificial light) in order to glow.

Directions:

Stir DEKA-ArtLiner well before using. The material to be painted has to be completely dry and thoroughly cleaned of dust and grease (fingerprints!). Apply paint with steady pressure. We recommend preliminary tests including wash fastness tests. Spots created by DEKA-ArtLiner cannot be removed.

Painting on fabric:

Wash and dry a clean fabric before painting to remove sizing, fabric softener, etc. In order to completely remove sizing, DEKA-TextilFit is recommended. Since the paint may penetrate through the fabric, use a piece of cardboard as a backing (for example, when painting shirts insert the cardboard between the front and back of the shirt). Do not heatset the completed piece by iron, this could damage the dimensional character.

To maintain the brilliance of DEKA-ArtLiner over time, we recommend washing projects at up to 30°C, delicate cycle, with a detergent for fine clothes. When using other DEKA products needing heat setting, fix them, using their specific instructions, before applying DEKA-ArtLiner.

If a project requires ironing after washing, iron it on the reverse side at the lowest possible temperature. If the setting is too hot, the paint may change shades.

Mixed Media: colouring - painting - spraying – and accents with DEKA-ArtLiner

Dyeing with DEKA-washing machine colour, DEKA textile colour aktuell or DEKA-batik colour series “L”. Then give your project a personal touch with DEKA-ColourStyle (colour spray for fabrics), DEKA-Permanent (fabric paint) and DEKA-ArtLiner(Star) !

Also our hobby, arts and crafts paints offer a variety of possibilities to create wonderful projects!

DEKA paints and dyes have represented excellent quality in the hobby and craft field for more than 95 years. The reason this level has been maintained for so long can be attributed directly to intensive laboratory research. Thanks to our international experience and expertise, DEKA paints are always produced utilizing the newest standards in chemical technology. The careful choice of raw materials has allowed us to combine top quality with progressive environmental consciousness. More than 65 years ago, DEKA was considered a forerunner by creating waterbased paints for textiles.

DEKA – the specialist in hobby paints!
